

Full-Time Employment Opportunity: Asbestos and Lead Trainer

AMA is committed to delivering accredited asbestos, lead, mold and safety training services to our diversified clients. We are seeking a dedicated Asbestos and Lead Trainer to join our team and help us maintain our high standards in delivering environmental, health and safety training services. This position requires a passionate and engaging individual with extensive knowledge of asbestos and lead regulations, excellent communication skills, computer literacy, and a desire to educate adult learners. The individual should be able to deliver the full spectrum of EPA asbestos and lead training courses. The ideal candidate will have a minimum of 5 years' experience in the field of asbestos and lead inspection and/or abatement. The ideal candidate should possess:

- Knowledge of federal and state (MD, VA, & DC) lead and asbestos regulations
- General knowledge of OSHA Construction and General Industry standards
- Strong communications skills
- Familiarity with Microsoft PowerPoint
- Availability for limited travel
- OSHA Authorized Outreach Trainer is a plus

About AMA: Recently acquired by the EI Group, Inc., AMA has been providing environmental, health and safety consulting and training services to government, industry, building owners & managers, architects, engineers, contractors and consultants since 1981. AMA provides training services in a wide array of health and safety and environmental programs to include construction safety, asbestos, lead paint, mold and hazardous materials. We provide these services at our state-of-the-art training facility or at a client-specified location.

About the EI Group: The EI Group, Inc., headquartered in Research Triangle Park, North Carolina and founded in 1989, is an environmental, health, and safety consulting firm specializing in providing consulting and training services to commercial clients in various industries throughout the U.S. and worldwide.
